

ADDENDUM #2

DATE: June 23, 2014
TO: All Prospective Bidders
FROM: Dennis Sienna, Purchasing Agent I
RE: **RFP# LM040114-1 Mechanical Services**

All respondents are hereby advised of the following amendments to the Request for Proposal documents which are hereby made an integral part of the bid documents for the subject contract, prepared by the University of Connecticut Procurement Services Department.

Proposals submitted shall be deemed to include contract document information as shown in Addendum No. 2. Respondents shall be required to acknowledge receipt of this addendum in their proposal response. Failure to acknowledge receipt of this addendum by the respondent may result in the rejection of their proposal response.

BIDDER NOTE: This addendum must be completed, signed and submitted with your proposal response to be considered for award. If you have already submitted a proposal, please complete the addendum and submit same in a sealed envelope, clearly marked with the bid number, response date, and return address. This will be accepted as part of your proposal response, **PROVIDING IT IS RECEIVED BY THE PURCHASING DEPARTMENT BY THE TIME AND DATE SPECIFIED IN ITEM NUMBER ONE (1) OF THIS DOCUMENT.**

Clarifications:

The Bid Opening Date has been extended to Thursday, June 26th 2014 @ 2:00 PM EST

Contract Attached

Questions:

- 1) Part of this RFP one of the minimum requirements for the HVAC contractors is the ability to perform service work on control systems (Section 3.11.1.5). Can the service for the controls portion of the work be submitted as a standalone response so that the controls service is not part of the HVAC service contract?

Service for the controls portion of the RFP can be separated from the HVAC portion of the solicitation. Please provide appropriate certification and field experience necessary for control technicians. Responding vendor can provide a separate rate sheet for this service.

- 2) Sewer/Mechanical services pay rate chart, there isn't an appropriate license class for wastewater pumping in the form of proposal how are we to respond?

There are no licenses required for waste water pumping required. In the form of proposal you can provide the hourly rates for all locations you are responding too for this classification in the market basket under the apprentice helper or provide a separate rate sheet.
